

Apprenticeship Prospectus

**Transport
Training
Services**

Experts in Automotive, Transport & Logistics

Transport Training Services (NI) Ltd and its predecessor, RTITB, have been delivering apprenticeship programmes for more than 50 years. With around 30% of all automotive, transport and logistics apprentices being trained by Transport Training Services (TTS), it is the largest single provider of apprenticeships to these sectors in Northern Ireland.

Accelerate Your Career

We know that the motor, transport and logistics sectors have a lot to offer. Aside from the excitement, variety, problem-solving and technology involved, both sectors are in high demand and so provide good long-term job prospects.

The motor industry employs **823,000 people** and contributes **£18.6 billion** to the UK economy.

Due to the highly rural nature of many parts of NI, transport by car is the only viable option for travel and commuting. Without the motor sector we would not have cars that are safe and legal to drive.

The road transport industry employs **2.7 million people** and contributes **£124 billion** to the UK economy.

Everything that comes into or goes out of Northern Ireland travels by road, so the career opportunities are vast and diverse:

CLOTHING

FOOD

FUEL

CONSTRUCTION

**PUBLIC
TRANSPORT**

FARMING

E-COMMERCE

KEY WORKERS

Transport workers are **essential** in our everyday lives

1.2M vehicles

licensed in NI – all need
maintained/repaired!

150,000 good vehicles &
3,400 buses all need drivers!

Our sectors are facing a shortfall of talent across all areas so qualified transport and automotive apprentices, once qualified, are in high demand!

Our Professional Campus

- ★ TTS focuses on providing class-leading expertise, purpose-built facilities and modern teaching methods to deliver relevant skills for the 21st century.
- ★ Earn while you learn! All TTS apprentices are employed from day one.
- ★ Training at TTS is a unique blend of workshop, classroom and e-learning, with minimum 50% hands-on training.

You're Not on Your Own

At TTS we really want to support those that show an ability and/or ambition to have a career in the automotive or transport industry.

CV Writing & Interview Preparation

Get the confidence you need to secure the job with our practical help in advance of employer interviews.

Job Matching Service

We can bring new apprentice recruits together with suitable vacancies within our large network of employers.

Our supportive Careers Development Officer is the link between you and your employer

Braking the Mould for Women in Wheels

WOMEN in WHEELS NI

Join the #WomenInWheelsNI movement!

Females are highly underrepresented in the automotive, transport and logistics industries. We want to change that!

FACT: Women could actually be better drivers!

The large goods vehicle test pass rate for women is consistently higher than their male counterparts!

“ Although I work in primarily a car dealership we also have contracts to maintain trucks, so I was employed to support on that side of things. This gives me an insight into both the automotive and transport sectors. I love working in this industry because I've always been a hands-on person – I've always enjoyed cars and am used to working with horses and being outside.

TTS has fantastic training facilities and brilliant tutors, and you're not in the classroom every single day of the week

when you're at the training centre because it's broken up with the practical side in the workshop, which makes it really enjoyable.

I would definitely recommend the apprenticeship to other females. From day one everyone has treated me as one of them. There's been no differences made at all so I wouldn't let the lack of female representation in transport/automotive put any other women off applying.
